## Redmark E-News

Volume V, Issue 2 | May 2021

### Welcome to the latest edition of Redmark E-News

It has been a busy spring here at Redmark following the launch of our electric hybrid upfits and charging station services. In this issue, we share several industry news briefs and interesting events. But first, we have some announcements of our own:

- **Press release:** This March, Redmark officially announced our expansion into HEV/PHEV upfits, related services, and charging station services. You can download the press release [here](#) or read coverage of the announcement in [Next-Gen Transportation News](#) and [FuelsFix](#).
- **Linkedin:** You can now follow our official [Linkedin](#) page, where we share interesting industry articles and events every week.
- **Job opportunities:** Redmark is hiring service technicians to work in our Commerce City shop. If you are interested, check out the jobs page on our [website](#) or email [jobs@redmark.com](mailto:jobs@redmark.com).

## - Redmark Update -

This spring, Redmark received a record order for nearly 100 quick-change installs from Xcel Energy, Q3, and other contractors. Redmark upfits the vehicles (including Dodge ProMaster vans, Ford medium-duty platforms, and Freightliner medium-duty platforms) with hose reels that allow Xcel and its contractors to perform pipe repairs and swap out meters and regulators with no interruption of service for their residential and commercial customers.

To learn more about Redmark's accessory upfits, [visit our website](#). For customers looking to eliminate methane emissions during pipeline repair and maintenance, Redmark offers the [Onboard Dynamics GoVAC™ system](#).

- June Events -

**Webinar: Autogas Answers with Clean Cities Georgia & The Propane Education & Research Council**

**10 am ET/8 am MT, June 3**

Learn about renewable propane, vehicle solutions for parcel/package, food and beverage delivery, paratransit, and school buses, and hear from fleet managers in Georgia who are already using propane autogas. [Register here.](#)

---

**Webinar Series: Coalition for Renewable Natural Gas**

**1 pm ET/11 am MT, Wednesdays**

At 1:00pm Eastern nearly every week, hosted or endorsed 'Wednesday Webinars' will feature expert members and partners on a variety of RNG industry-relevant Leadership, Education, Advocacy, Development and Sustainability topics.

[Find the schedule here.](#)

---

**Virtual Conference: Forth Roadmap Conference 2021**

**June 14 - 16**

The annual Roadmap Conference brings mobility industry stakeholders together in a highly interactive format to explore emerging trends, share best practices and lessons learned, and build the road ahead. [Register here.](#)

---

**Webinar: NCCC 25th Anniversary Celebration**

**4:30 pm MT, June 25**

The Northern Colorado Clean Cities (NCCC) coalition has been active in Northern Colorado for more than 25 years. To celebrate this milestone, NCCC invites you to celebrate with some of our stakeholders that have helped to advance alternative fuels and advanced vehicle technologies in the state. [Register here.](#)

## A Message from:

[X3CNG](#) is a leading CNG fueling station operator in the Rocky Mountain Region. X3CNG has the largest network of public-access CNG fueling stations in Colorado and offers multiple solutions to fleets that help them reduce their carbon footprint, lower criteria pollutants, and improve fleet economics. All locations offer renewable natural gas (RNG), which helps fleets participate in grant programs, the [Colorado GHG Roadmap](#), and the upcoming Clean Truck Strategy program. X3CNG and Redmark often partner to bring solutions to fleet customers such as [roadside emergency vehicle fueling](#) and other support services.

If you are interested in learning about RNG or how your fleet can qualify for vehicle incentives by replacing CNG with RNG, please contact James Mora at [james.mora@x3cng.com](mailto:james.mora@x3cng.com).
